ELECTRIC HEATERS NEEDED.

A Deficiency of the Street Car Equip-

ment in Germany.

te that there is great need of electric

at Leipzig not having a single car ich is heated either by electricity or l on the coldest days in winter. Form-

when horse cars were in use, they

ly, when horse cars were in use, they ere heated by placing coals of lire in on boxes; but, after several months' in the system was abandoned. It is not because there is no cold weathduring the winter months, says the onsul, that street cars in most of the ties of Germany are not heated, but because the city authorities do not compel es street railway companies to make her cars comfortable; and, unless reaired to do so by law, they will not put hemselves to this extra expense. Mr. Warner urges the introduction of merican electric street car heaters, but lds that, in order to meet with success, will be necessary, first of all, to connec the authorities of the fact that the aith of the general public is greatly enugered by riding in unheated cars durg the winter months.

Suicide of St. Louis Singer.

ST. LOUIS, March 21.—Charles W. fumphrey, tenor singer and a member

the Second Baptist Church choir, com of the second Baptist Church choir, com-mitted suicide in his studio yester-day by shooting himself through the heart. He left a farewell note to his mother, but nothing to indicate the mo-tive for self-destruction.

Warner, the American Consul at g. reports to the Department of

The same remedies we have today existed for thousands of years, but heir existence was known the knowl-of how to use them was lacking, ey became valuable to the human only when experiment and science ved the way to use them to get re-

Packages to Contain Certain Effects of Senators and Representatives Awaiting Shipment Under Franking Privileges - Alleged Abuses.

The grip is an old disease with a new name; it is really catarrhal in character, and the usual symptoms are those of acute catarrh, but the old-time catarrh powders, salves, and sprays do not cute it, neither does the application of antities through an inhaler give anything more than relief for a short time.

The antiseptics are all right; they will kill the germs of catarrh and grip if they are applied rightly, but their local application to the nose and throat avail little because the germs are in the blood and through the whole system.

Stuart's Catarrh Tablets contain many of these same natisepties, that are used in sprays and innaters, but instead of applying them to the inflamed members of the nose and throat, they are taken into the stomach and thus reached the blood, the real seat of the disease, and drive out the infectious germs through the natural channels of the bowels and kidneys.

In other words, Stuart's Catarrh Tablets reach the cause of the mischief instead of merely local symptoms.

The remarkable success of these tablets in curing grip, catarrh and throat and lung troubles is because they drive the catarrhal poison from the system and the nose and throat become clear of the excessive secretion of mucus, which causes the secretion of mucus, which causes the secretion of mucus which causes the hawking, spitting, and gagging, because the secretion is not supplied from healthy blood.

Two years ago Stuart's Catarrh Tablets were unknown, but today have become so

borrowed from the House library and re-tained them for future use at home. In the unknown, but today have become so that through positive merit that drug-se everywhere in the United States, ada, and Great Britain now sell them.

reference catalogue destroyed.

Aside from this matter, it has never heen denied that the franking privilege is featfully abused. There has hardly been a case in history wherein a member of Congress has been subjected to the fine of \$300 which is the penalty for sending anything save official business under a frank, yet almost two-thirds of those in each Congress openly abuse the privi-
